Flooding on the North Shore

Four Townships Declare State of Emergency as Storms Close Several Area Roads

WHAT A NIGHT! MONDAY NIGHT'S heavy rain and severe thunderstorms resulted in several roads north and east of the Sault being damaged or closed due to mudslides, sink holes, flooding and washouts.

Although most of St. Joseph Island fortunately missed being on the receiving end of the torrential conditions, many of our neighbours throughout Central Algoma were very hard hit.

Throughout the night, update bulletins and road closure notices were pouring in as fast as the rain was coming down. As of our Tuesday press time, several roads have since been re-opened, but not all.

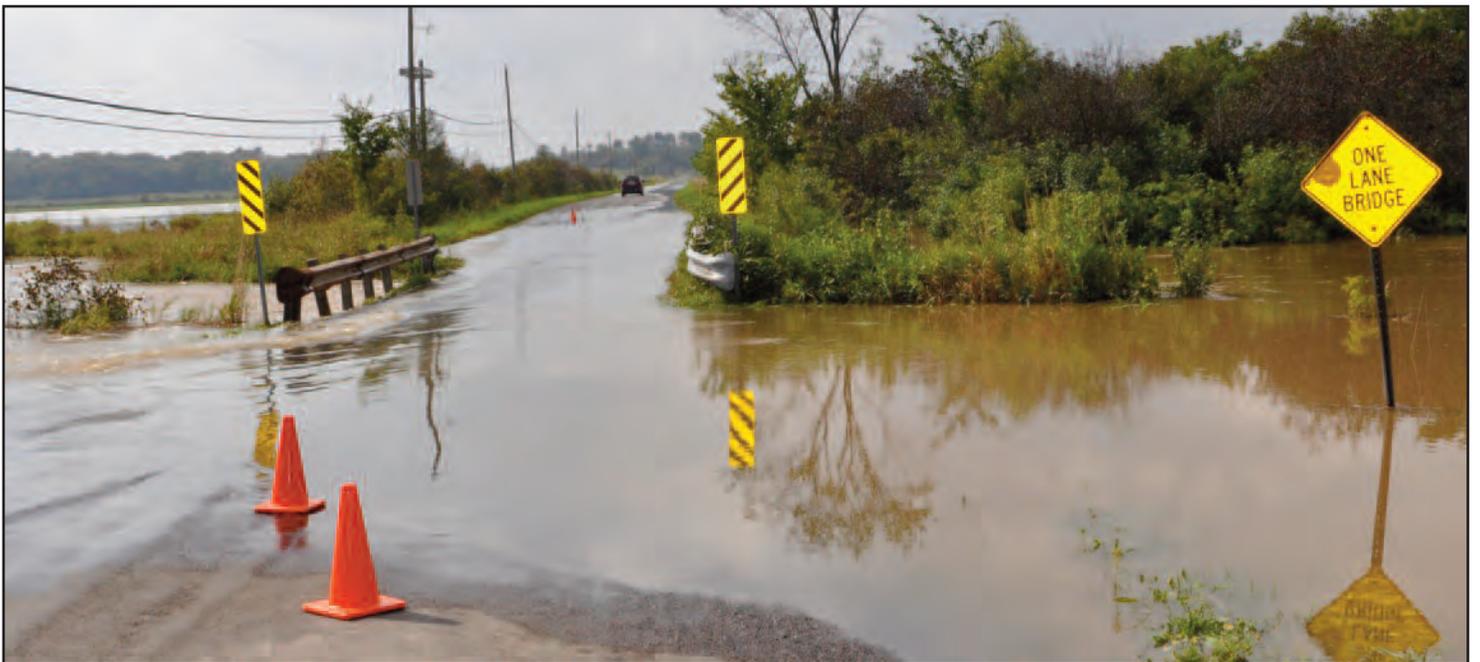

Photos taken at Government Rd. and Gordon Lake Road area.

Highway 17 east of Thessalon remains closed in both directions due to a road washout and could remain closed for two to three days. Westbound traffic can turn north on Highway 546 in Iron Bridge, which will turn into Highway 554. Continue on Highway 554 until you reach Highway 129 (approximately 27 km). Turn south on Highway 129 which will bring you back to Highway 17 past the washed out area.

East bound traffic is currently being re-directed in the reverse direction on these highways.

Johnson Township and Plummer Additional Township declared a State of Emergency and all secondary roads in these Townships are closed until further notice. This dramatic news was quickly followed by similar declarations from the municipalities of Huron Shores and MacDonald, Meredith townships.

FLOODING...continued from page 1

Road repair crews are presently on scene at most of these locations.

The road washouts are responsible for at least one reported death. At approximately 7 am on Tuesday morning, a motorcyclist was southbound on Duff Road in Plummer Additional township, when the bike hit a large washout. The time of day and lighting on Duff Road were also factors in the collision. The 57 year old rider, ironically named Christopher Flood, succumbed to his injuries at the Thessalon Hospital. He was well known to many islanders.

With water running at higher than normal levels in usually-small creeks and streams, the Sault Ste. Marie Region Conservation Authority has also issued a Flood Warning to residents of the Sault Ste. Marie area.

The situation has also drawn the attention of Queen's Park. Algoma-Manitoulin MPP Michael Mantha spoke with Mayor Beth West from the Township of Plummer Additional on Tuesday morning and has pledged his support to the affected communities.

Starting in Echo Bay, the tour extends around Highway 638, through Leeburn and Rydal Bank to Bruce Mines and back along Highway 17, approximately 100 kilometres. "I spoke directly with the Minister of Community Safety this morning in the legislature after learning about the state of emergency being called," said Mr. Mantha. "Minister Meilleur and her staff assured us that resources would be available once a full assessment of the damage is completed. In the meantime we will continue to monitor the situation closely and ensure support is being provided."

For more updates on road conditions of provincial highways, visit the Ontario Ministry of Transportation website at <http://www.mto.gov.on.ca> or call 511. Please do not call police or other emergency services for road advisory updates or road condition information.

911 Goes Down on St. Joe

FORTUNATELY, MOST OF US DIDN'T EVEN KNOW there was a problem at the time! Yet things could have gotten very, very serious as our local 911 Emergency Response telephone service went out, then came back, but only partly. Full coverage was finally restored on Tuesday morning.

The "good" news is that only someone actually calling in a 911 emergency for police, ambulance or fire assistance from the Island would be affected, when their call failed to go through. Regular calls would be unaffected. The "bad" news of course, is that people don't call that number when everything is going fine. An emergency is NOT the time to find the phone line out of order!

We were first alerted to the situation last Thursday by Joe Books, the Island's Emergency Services Co-ordinator, who was notifying municipal authorities that parts of our local 911 telephone service were temporarily out of order.

Fortunately, we were never totally 'down'. Although you couldn't access the 911 service from a 'land line' for several days, you COULD still reach it by cell phone ... assuming that you were lucky enough to be in one of the few parts of the island that has cellular coverage!

If the problem continued, each municipality was poised to activate its established backup plans. Fortunately, that wasn't necessary. Full 911 service was restored on Tuesday morning but Joe and our emergency response authorities have some good advice for thinking and planning ahead.

In the event of another 911 system failure, you can still summon help in an emergency by calling 1-888-310-1122, which connects to the OPP central dispatch office in North Bay. That's where our 911 calls go now, which are then re-directed to the local emergency services in the caller's area. Write that

number down and keep it by your phone. It could save a life! Although this line should not usually be used for emergency calls, it does provide a vital, life-saving link when our emergency number doesn't connect.

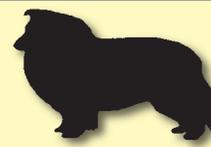

In a medical emergency, you could also call Matthews Memorial Hospital directly at 705 246-2570. Like the OPP number, this number should be used for emergency calls only when the 911 system is down.

Even if you're not in a cellular service area, you might still be able to make a 911 cell call, by putting your phone on 'Roam'. If you're not sure how to do this, check your phone's Owner's Manual. You might pick up a different network than yours, perhaps even one of the stronger US networks but, to our knowledge, none will charge you for 911 calls.

Residents of Jocelyn Township already had a practice run of sorts in June of last year, when a collision knocked down some telephone poles, causing a massive telephone – and 911 – outage for most of the southern part of the island for a day. Jocelyn Township invoked its own backup procedures, updating residents using the news media and putting personnel on alert to relay 911 calls for residents, using their radios.

It could happen again anytime, so remember this number!

OPP Warns of MPAC Property Assessment Agency Scam

Fraudsters 'phishing' for identity theft victims

THE ONTARIO PROVINCIAL POLICE (OPP) is warning residents to be wary of callers claiming to represent a service provider agency of the Government of Ontario and to always safeguard their personal information.

In recent weeks, the Municipal Property Assessment Corporation (MPAC) has become aware that a person or persons is placing phone calls to property owners claiming to represent MPAC and asking for personal information.

MPAC does not make calls to collect personal information and has reported these incidents to the OPP.

If you receive a phone call from anyone claiming to represent MPAC and requesting personal information, do not provide it.

If you have any questions or receive such calls, please call MPAC's Customer Contact Centre toll-free at 1-877-635-6722.

Alternatively, if you suspect you or someone you know has been affected by this scam, contact police or Crime Stoppers at 1-800-222-8477 (TIPS).
